

Citibank[®] Online Investments now offers U.S. Institutional Money Market Funds from BlackRock

New Fund Offerings

Citibank[®] Online Investments, Citi's award-winning investment portal, is pleased to announce the addition of the BlackRock Liquidity Funds. Citi now offers clients access to more than 125 institutional funds, including U.S. dollar-denominated domestic (U.S. registered), offshore (non-U.S. registered), tax-exempt, tax-efficient, government/Treasury and non-dollar currency (Euro, Sterling) funds through a single channel, making it easier and more efficient for companies to manage their liquidity. With the convenience of Citibank Online Investments, existing clients will automatically have access to these new funds from the "Fund Info" page. No additional paperwork is required.

Citibank Online Investments provides unique client benefits

Citibank Online Investments is a global, secure, web-based investment service accessible via CitiDirect[®] Online Banking, Citi's web-based cash management system and TreasuryVision[®], Citi's award-winning information and analytics service. The portal can be linked to accounts in 22 countries for money market investments in 18 currencies including several types of direct investments and money market funds, both in the U.S. and offshore. Institutional clients can go online to view rates, initiate trades and receive immediate confirmation of trades or choose to view information later through a trade inquiry screen. Citibank Online Investments now offers more products in more locations than ever before.
